C.1	The rights of stakeholders that are established by law or through mutual agreements are to be respected.			
Does the company disclose a policy that address:				
C.1.1	The existence and scope of the company's efforts to address customer's welfare?	<p>OECD Principle IV (A): The rights of stakeholders that are established by law or through mutual agreements are to be respected. In all OECD countries, the rights of stakeholders are established by law (e.g. labour, business, commercial and insolvency laws) or by contractual relations. Even in areas where stakeholder interests are not legislated, many firms make additional commitments to stakeholders, and concern over corporate reputation and corporate performance often requires the recognition of broader interests.</p>	YES	<p>Our overall purpose and corporate culture are geared toward the fulfillment of quality service for our customers. Globe values the growing network of customers, suppliers and communities that it has been able to partner with over the years. The company believes in forging strong relationships based on trust, mutual respect, cooperation and a vision of shared growth with all its stakeholders.</p> <p>Globe nurtures its relationships with its customers through the philosophy of "Treating People Right to Create a Globe of Good". The company's customer value proposition is captured by the acronym and dictum "SEED" – Secure the customer, Engage the customer, Empower the customer, and Delight the customer.</p> <p>As stated in our MCG, we identify our customers as one of our stakeholders. Our Board is tasked to promote equitable treatment of all our stakeholders, including shareholders and customers. The rights of our stakeholders are in our MCG and are likewise covered by specific company policies such as, among others, whistleblower policy, policy on RPTs, conflict of interest policy, privacy policy and policy in relation to health, safety and welfare of customers and employees.</p>

			<p>Further, we put a premium on ensuring the health and safety in Globe work places and even outside of it. We do this through our strict adherence to the government's Occupational Safety and Health (OSH) standards and the ISO45001 Occupational Health and Safety Management Systems Standards, among other standards and certifications, as well as a host of other related programs. This ensures that we minimize everyone's exposure to risk and accidents, including contractors, vendors, visitors to our sites, customers and our employees. Our Occupational Safety and Health policy guides us in protecting the health and safety of our employees, customers and the surrounding communities where we operate.</p> <p>Providing the best customer experience is a key strategic priority at Globe, and the defining factor that makes the organization unique. Among other initiatives, Globe has also established various other platforms to interact with customers such as the User Council, Business Advisory Council and Women's Council to help with ideation and testing of products and services. This also deepens the understanding of customer engagement activities and aids in contributing to better customer experience.</p> <p><u>GLO MCG, pp. 2; 45-52 (Article I; Article VII, Section 14.1-14.3, 15.2-15.4 ,15.7)</u> https://www.globe.com.ph/content/dam/globe/brie/About-us/corporate-governance/documents/manual-of-corporate-governance/GLO-MCG-SECReceived30May2017.pdf</p> <p><u>GLO IR, pp. 57, 130, 132, 138-142</u> https://www.globe.com.ph/content/dam/globe/brie/About-us/sustainability/documents/GLO-Integrated-Report-2019.pdf</p> <p><u>GLO i-ACGR, p. 121 (Optional: Principle 14(1))</u></p>

Vendors/suppliers undergo a comprehensive accreditation process which includes assessment of their technical and financial capability, business continuity, safety, health, and environmental policies. Grounded on the practice of fair, ethical, and governance policies, opportunity is equitably provided to the appropriate suppliers through competitive bidding and auctions. Proposals are evaluated on the basis of best-value including a consideration of environment-friendly policies and practices. Given equivalent proposals, preference for purchase award is given to local suppliers and proposals aligned with green practices.</p> <p>Relationships with suppliers are also highly valued, with each considered a business partner. Vendors/suppliers also provide learning opportunity through plant visits and technology briefings. Conversely, Vendor Clinics are initiated for selected vendors/suppliers/contractors to help improve their performance and competitiveness.</p>
